

Hein Htut Aung

Frontend Developer

CAREER OBJECTIVE

An enthusiastic IT professional with 1 year of immersive experience as a Frontend Developer Intern at a distinguished software development and consulting firm, combined with nearly 2 years as a React Developer at KBZ Bank. Skilled in designing intuitive user interfaces and creating seamless user interactions, leveraging advanced proficiency in HTML, CSS, and JavaScript. Renowned for strong problem-solving abilities and a keen aptitude for programming logic, I have further solidified my expertise in frontend development through hands-on experience. My tenure in these roles has allowed me to contribute to the delivery of scalable, user-focused applications while collaborating effectively with multidisciplinary teams to achieve organizational goals.

EDUCATION

B.A(English)

Dagon University

2016 - 2023

Diploma In Computing (L4DC)

NCC Education/Twinkle University

2023 - 2024

SKILLS

- Next JS
- HTML5
- CSS
- JavaScript
- React JS
- TypeScript

Full-Stack Developer

KBZ Bank

2023-Present

Key Responsibilities:

- Designed and implemented frontend components using React.js and the Material-UI (MUI) library, ensuring an optimal user experience with responsive and visually appealing interfaces.
- Collaborated extensively with the UI/UX team to transform design concepts into functional, user-friendly interfaces, promoting seamless user interactions.
- Played a pivotal role in advancing and enhancing HRIS functionalities, addressing key business requirements, and improving HR operational workflows.
- Integrated various APIs to expand the functionality and connectivity of the SmarterHR platform, ensuring robust system performance.
- Delivered technical support and troubleshooting for SmarterHR software, ensuring uninterrupted operations.
- Developed and implemented new features, such as the Employee Recommendation Letter function, to meet evolving business needs and enhance user satisfaction.
- Implemented new feature of SmarHR Claim Admin Dashboard and On Behalf Claim functions.

Junior Frontend Developer

Digit House Co.,Ltd

2022-2023

I've created a flexible design system by blending Tailwind and Bootstrap, and using React for smooth user interactions. I test software, report bugs, and optimize databases with SQL and ER diagrams. Engaging with clients, I ensure projects meet their goals and swiftly solve technical issues for users. I stay updated on tech trends to keep our systems running smoothly.
